Cisco Networking Academy is an innovative education initiative that delivers information and communication technology skills to improve career and economic opportunities around the world.

Cisco Networking Academy is approved and supervised by the Training Unit of Ignatius Ajuru University of Education ICT Centre, it provides on-line courses, interactive tools and lab activities to prepare individuals for information technology and networking careers in virtually every industry.

The programme will give students the foundation for a digital career as the curriculum is designed to build core technical skills while developing communication, collaboration and problem solving abilities needed in today's economy.

Please plan to attend and on time too.
